ALBANY, ALABAMA, TUESDAY, JUNE 7, 1921

PRICE FIVE CENTS

GOVERNMENT MAY INTER THE COAL BUSINESS

Federal Aid is Given To The Flood Sufferers

MAY RECOGNIZE MEXICO

OBREGON PROMISES MEXICO WILL PAY HER WORLD DEBTS WITHOUT DELAY

Memorandum Containing Assurances Said to be in Possession of Government

FOREIGN CITIZENS ALSO WILL GET PROTECTION

Obregon Declares His Government is in the Saddle to Stay

(International News Service)
WASHINGTON, June 7.—The promise of President Obregon that Mexico will make satisfactory settlement of all her foreign indebtedness and that the lives and property of foreigners will be accorded full governmental protection, marks the greatest single step that has been taken in months toward recognition of his government by the United States it was said here today.

The memorandum from Mexico City containing these assurances is understood to be in possession of the state department and in all probability will form the basis of discussion of the Mexican problem in the cabinet meeting this week.

The huge sums which Mexico owes in foreign financial quarters and the comparative apathy with which various Mexican governments have regarded them has constituted one of the chief barriers to recognition before. The assurance of Obregon that he will discharge these debts and the assurance that his government is in the saddle to stay will be necessary before complete recognition is extended, it was said in official quarters today.

Captured Still Had 1,000 Capacity

(Montgomery Bureau, Albany-Décatúr Daily.)
MONTGOMERY, ALA., June 7.—One one thousand gallon still, one six hundred gallon still and two five hundred gallon stills were confiscated and destroyed in raids in Lee county, conducted by state constables during the week-end, according to reports received at the capitol today.

The larger stills were located near Salem and in addition the agents destroyed two thousand gallons of beer and thirty-nine fermenters. The five hundred gallon still was located near Marvin Falls and in addition to the stills the constables confiscated forty-two gallons of moonshine liquor, eighteen hundred gallons of beer, forty-two sixty gallon fermenters and a thirteen hundred gallon beer vat.

First Bloom.
The first cotton bloom of the season reached the state department of agriculture Monday from E. W. Hubbard of Enterprise. M. C. Allgood, commissioner, said this was a remarkable record for this season as the average cotton plant is only three inches high while a plant must be about twelve inches high before blooming.

Inspect Corps.
Col. Hartley A. Moon, head of the state military department, and Col. W. P. Screws, inspector-instructor of the Alabama National Guard, left today for Sylacauga where they will make an inspection of the motor transport company which is being organized there.

Continue Drive Against Speeding

The Albany police department continued its drive against speeders today and another defendant was arraigned before Mayor Payne this morning and fined \$6.00.

Naval Surgeon Is Being Sought For Witness For Secy

The naval surgeon who examined William F. Seay, held at Florence, charged with murder of his young bride of 20 months, is still the object of the search of the defendant's attorneys, it was indicated today. W. W. Callahan, one of North Alabama's best known lawyers, has been retained by the defense, but it was not known definitely today whether or not Mr. Callahan has been able to find the doctor who examined Seay while the latter was serving in the United States navy.

Seay's trial has been set for Thursday, June 9, and according to press dispatches from Florence there has been some rumors that a change of venue being asked by the defense, notwithstanding the statement that public feeling has died down considerably.

Seay's murder of his wife as one of the most shocking cases in audacious county court annals. The mutilated body of his wife was found in a lonely spot near Stewart's Springs by a searching party after the couple had failed to return from a "vac."

Seay was arrested later and was brought here for safekeeping, then being taken to Birmingham and from Birmingham to Florence where he was arraigned.

There was little doubt in the public mind that Seay's attorney will enter a plea of insanity, it being alleged that he has already been committed to at least one asylum for mental treatment.

REVOLUTION NEAR IN HONDURAS AMERICAN FIRMS

(International News Service)
WASHINGTON, June 7.—A revolution in Honduras within a short time was presented today by representatives of American business firms operating in that republic. Discrimination against American interests and open encouragement by government officials of attacks on American property is charged.

During a recent strike at Laciba two military chiefs sent to maintain order among the workmen are reported to have made incendiary speeches to the strikers, promising support of any violence committed against American property.

Encouraged by these the strikers are said to have attacked and partially destroyed the property of a New Orleans firm. At Corto Cortez the same officials are said to have instigated an attack upon other American property.

Charges of discrimination against American capital in favor of British oil interests also are made.

Latin-Americans Relations Talked

(International News Service)
WASHINGTON, June 7.—President Harding and his cabinet today discussed the betterment of Latin-American relations for two hours, to the exclusion of all other subjects.

Mexico and San Domingo relations were the basis of the greater part of the discussion.

Secretary of State Hughes presented a complete statement of negotiations with Mexico and the situation with regard to recognition of that country.

Woman Bluebeard Returned to U. S.

(International News Service)
PORTLAND, ORE., June 7.—The liner Matsonia from Hawaii arrived at this port at 10:15 o'clock today, bringing back Mrs. Lydia E. Southard, accused of the murder of four of her husbands. In charge of Deputy Sheriff Ormsby, Mrs. Southard, after landing here this afternoon, will be hurried to Idaho for arraignment on the specific charge of having poisoned her fourth husband, Ed Meyers, prominent Twin Falls rancher.

Mrs. Southard waived extradition when arrested in Hawaii and readily consented to accompany Ormsby back to face trial. Paul Vincent Southard, her fifth husband, a chief petty officer of the navy, is following on board a naval collier.

NOMINATIONS MADE FOR CENTRAL LABOR UNION OFFICIALS

The Central Labor Union meeting of last night was well attended, with some delegates present from the woman's trade council. President Cline, presided and after the regular routine of business was transacted considerable time was given to the matter of the miner's relief work of the committee headed by H. K. Laatsch. Mr. Laatsch stated that others than the Birmingham mines had been assisted, especially families out of employment in Morgan county.

It was decided that the present committee be continued until next meeting of the Central Labor Union, to balance off all accounts and make its final report.

Last night being the regular meeting for the nomination of officers for the next six months President Cline called for nominations. A large number of delegates were recorded by the secretary as named to be voted on at the next regular meeting.

The candidates for president were T. J. Martin, D. C. Jones, and S. O. Winton. Vice-president W. R. McCluskey, of the state Federation of Labor who was a member of the arrangement committee for State Convention of the Alabama Federation of Labor recently held in Albany, was present and reported for his committee, which report was accepted.

Students Mail Laundry Home for 'Ma' to do

(International News Service)
COLUMBUS, OHIO, June 7.—Hundreds of students at Ohio State University here send their washings home. These students include a number who reside in distant parts of Ohio.

A canvass-covered box is used in sending the solid linen home and back. Laundry bills are cut considerably through this practise of letting mothers do the work, these students say.

Soon learning the necessary amount of postage, the boys stamp the boxes and pile them about mail boxes in the university district.

However, on rainy days when rain soaks the boxes, the weight as registered at home post offices means "postage due" for dad.

The largest consignments are mailed on Sundays. At one mail box, near High street and Eleventh avenue, the southeast corner of the university campus, it is necessary to use a wagon in removing the large number of boxes which, sometimes, are piled higher than the mail box.

COMPULSORY WORK ORDERED IN PUEBLO; GIGANTIC TASK OF CLEANING UP BEGUN

Citizens Told to Work for 43 Cents an Hour or Nothing

FAILURE TO OBEY ORDER MEANS INSTANT ARREST

Many Bodies Are Being Recovered From Mud on Streets

(International News Service)
WASHINGTON, June 7.—Resolutions, providing \$1,000,000 for Federal aid for the flood districts of Colorado, will be introduced in congress this afternoon by Senator Phipps and Representative Hardy, of Colorado. This action was decided upon following a conference between the President, Senator Phipps and Representative Hardy.

PUEBLO, COL., June 7.—Optimistic despite two terrible flood disasters since Friday, Pueblo today started the work of reconstruction.

Scrapers are at work on the streets and the mud and debris is being carted away.

At an early hour this morning 52 bodies had been found, ten of them having just been recovered on the St. Charles Mesa. The remainder are in local morgues. The death list is expected to mount as the work of clearing away the wreckage goes on, but it will be far below the first estimates.

The order which put every able bodied man to work in the reconstruction of Pueblo provided pay of 43 cents an hour. Those who refuse to work are subject to arrest and will be put to work without compensation.

Tourists and sight-seers have been ordered to leave town.

Four bodies were recovered and a total of 22 declared known to be dead in the town of Avondale, Vineland and Boone and the district between Pueblo and Boone, 20 miles down the river, according to a report.

Reports from the eastern Colorado and southwestern Kansas region, through which the Arkansas flows, indicated that while thousands of acres of rich farm land were being inundated, there had been no loss of life. The crest of the flood that passed Pueblo was rolling eastward having passed Lamar, near the Kansas state line.

Governor Shoup, of Colorado, expected prompt action by congress on his appeal for relief. He estimated \$20,000,000 would be required. The property loss in Pueblo was estimated at between \$10,000,000 and \$15,000,000 and in the state at large at more than \$40,000,000.

Pueblo was still without light, water, or gas services this morning.

FIRST FATALITY.

DENVER, COL., June 7.—The first fatality in the flood waters of the Platte river that flows through the western section of this city, occurred shortly before 8 o'clock this morning when a man attempted to cross the swollen stream at 12th avenue and Zinta street. He was swept away within sight of police and watchers who are having difficulty in keeping pedestrians out of the danger zone.

A drizzling rain early today resulted in a continued rise of the waters of the river and debris was piling up with the waters in the railroad yards in this portion of the city.

Residents of Valverde, Jerome Park and Globeville districts deserted their homes during last night.

Squads of policemen are on guard warning inhabitants to seek high ground.

RAINED OUT.
Yesterday's game between the Twins and Russellville was called off on account of rain. A doubleheader was scheduled for today.

BUILDING AGAIN IS PICKING UP; OPERATE PLANT

Building again is picking up, Morrison said. "The increase is not throughout this section of the South, Paul Morrison, manager of the Decatur Brick company, declared today in announcing the receipt of another order for a quarter of a million brick. At the same time he stated that repairs were being completed and arrangements made for the resumption of operations by the Decatur Brick company's plant.

When the plant resumes operations, approximately 35 to 40 men will be put back to work. The plant, suspended about eight months ago, "Building is picking up in all sections of the South apparently," Mr.

OFFICERS ELECTED BY ALBANY LODGE FOR ENSUING YEAR

At an enthusiastic meeting of members of Albany lodge No. 291, A. F. & A. M. held last night, the following officers were elected for the ensuing year:

Charles E. Sittason, worshipful master.

Ernest R. Brannum, senior warden.

Ed R. Adecock, junior warden.

Elbert Speer, senior warden.

Hubert Ross, junior warden.

E. E. Graves, treasurer.

C. McMillan, secretary.

A. H. Kelly, tiler.

Democrat Appears Winner in Fourth

(International News Service)
ANNISTON, Ala., June 7.—The fourth Alabama congressional district is polling a heavy vote today in the Jeffers-Longshore race for congressman from this district, to succeed the late Fred L. Blackmon.

Both Republicans and Democrats have carried on an extensive fight for their respective candidates. A victory for Jeffers is predicted, but indications are that his lead will not be as large as had been hoped for.

Democratic clubs, formed to support Jeffers, rallied the voters in goodly numbers and contend that Jeffers will have a safe majority.

"Summer Home" Religious Meetings

The meeting at the tent the summer home of the Jackson street Church of Christ was well attended last night in spite of unfavorable weather conditions. Mr. Thompson spoke forcefully and interestingly on the subject, "A Good Man." The subject was handled in a masterly manner and the unanimous verdict of all was, "It is good to be here." The remaining subjects of the week will be directed against materialism the subjects being discussed in the order in which they have appeared in this paper. Tonight the subject is "Life."

Ford Prices Are Reduced Again

(International News Service)
DETROIT, MICH., June 7.—The Ford Motor company today announced another reduction in the list prices of all types of Ford cars and the Ford trucks to take effect immediately. The list prices, f. o. b. Detroit, are now as follows: Touring car \$415; runabout \$370; coupe \$495; sedan \$760.

SECRETARY FALL TELLS OPERATORS OF NEW MOVE TO CUT FUEL PRICES

Warning Creates Interest in Conference Today With the Mine Owners

MUST COOPERATE OR COMPETE WITH U. S.

Frelinghuysen Bill Requiring Cost and Market Figures is Under Discussion

WASHINGTON, June 7.—Sharp warning that the government may enter the coal business in order to reduce prices was given to coal operators here today by Secretary of the Interior Fall. The warning came at a conference between Secretary Fall, Secretary of Commerce Hoover and representatives of the anthracite and bituminous coal industry, and after the coal operators had voiced their opposition to proposed legislation which would make it incumbent upon them to furnish the government with statistics showing production and costs.

Evidently aroused by the attitude of the coal operators, Secretary Fall took the floor and in firm tones declared to the operators that "the government owns more coal land than all of you here."

"Sooner or later you may find yourself in competition with the government in the matter of prices," he said. "It is for you to say whether you will co-operate with the government now or whether you will be compelled to do it."

Immediately there were many coal operators upon their feet professing their desire to aid the government in any possible way in the matter of bringing fuel prices to a reasonable level.

The Frelinghuysen bill, which would require coal operators to advise the government as to their production and cost, was under discussion when the conference was shaken by the pronouncement of Secretary Fall.

SUNRISE PRAYER MEETING IS HELD

ATHENS, Ala., June 7.—A sunrise prayer meeting this morning opened the second meeting of the fourteenth annual conference of the North Alabama Epworth league. The sunrise meeting will be a feature each morning at 6 o'clock during the week's conference.

A touching tribute was paid Dr. George Stuart, of Birmingham, who was scheduled for an address before the meeting Monday night when Dr. W. G. Henry offered a prayer for his safe return to health. He is at present ill at the Johns Hopkins hospital in Baltimore.

Earl C. Lackey, of Birmingham, president of the conference, called the conference to order Monday night and explained the purposes and aims of the body. He rendered a splendid report of the year's activities.

Twice as many delegates were present today as attended the conference last year and more were looked for during the day.

Funeral is Held For Mrs. White

Funeral services were held here Sunday afternoon for Mrs. W. S. White, who died Saturday night at 8 o'clock at her home near Belle Mina. Services were conducted in the cemetery chapel by Rev. T. G. Mundy, rector of St. John's Episcopal church, interment being made here.

Mrs. White is survived by her husband and two daughters, Mrs. Walter Neville, of Trinity and Mrs. E. C. Lindsay, of Florence.

Committee Back From Nashville

The committee which went to Nashville yesterday to open negotiations in connection with the sale of street improvement bonds totalling nearly \$200,000 returned last night. It will be several days probably before the committee is able to make a complete and final report, it was stated.

Making the trip were: Mayor Payne, City Attorney Tennis Tidwell, City Treasurer T. A. Bowles and F. A. Bloodworth.

A PROFITABLE ACRE

A lesson to cotton farmers is given by a Tennessee youth who cleared \$314.52 on one acre of land planted in tomatoes, according to an article in The Nashville Tennessean. The article follows:

Hubert Nelson of Gibson county, made a clear profit of \$314.52 from his project of one acre of tomatoes grown as a part of his instruction in vocational agriculture under the Smith-Hughes act, according to a report by the Tennessee department.

The land had been in beans the year before. It was a clay loam soil and was broken about eight inches deep early in the spring. It had been disked and was allowed to lay until about the middle of April, when it was again thoroughly disked. After disked about three times the fertilizer was distributed on April 16. On April 22, the plants were set in the field. The plants were grown by the boy. About 600 pounds of commercial fertilizer were used and one ton of barnyard manure was also applied. As soon as the plants were set, cultivation, staking, tying and pruning began. Cultivation was shallow and frequent. About June 10 the cultivation was over and on June 29 marketing began.

There were harvested 176 bushels of green and 63 bushels of ripe tomatoes. These sold for a total of \$438.35. There was a total of 108½ hours in man labor, and 64½ hours in horse labor devoted to the project.

The expense was as follows:
Rent of land, \$12; cost of plants, \$35; fertilizer, \$15; manure, \$22; preparation, \$6.35; planting and cultivation, \$24.80; harvesting, \$28.68. Total \$123.83.

Young Nelson showed what may be accomplished by intensified farming and the growing of foodstuffs. To persuade cotton planters to grow a quantity of salable foodstuffs was one of the objects of the recent campaign in the South to reduce the cotton acreage. Naturally if all farmers grew tomatoes, that market would be glutted and the price would not be profitable. This was the reason for the campaign for diversification, a part of the cotton reduction movement. The remaining reason for urging the planting of less cotton was the very apparent fact that until the overstocked cotton market is in better shape, the influx of the new crop would only add to the downward pressure.

Surely these three reasons are sufficient.

TOBACCO AND FACE POWDER
COST MORE THAN EDUCATION

Americans are quite given to boasting of their large expenditures for public education.

From the point of view of relativity the boasting doesn't square with the facts.

We spend something less than \$1,000,000,000 a year on public education.

In 1920 our tobacco bill was more than double this and for face powder, cosmetics, perfumes, etc., we spent three-quarters of a billion.

For every dollar we spend on public education, we spend 25 cents for ice cream, 50 cents for jewelry, 35 cents for soft drinks and 30 cents for furs.

The \$50,000,000 a year we spend for chewing gum is two and a half times the total expenditures for normal schools and almost exactly the same as all state and city appropriations for higher education.

The U. S. Commissioner of Education points out that if we would smoke two cigarettes instead of three, two cigars instead of three, take two chews instead of three, and add the money thus saved to the teachers' payroll, the salaries of teachers could be increased 120 per cent.

As it is pretty generally admitted that our teachers as a class are criminally underpaid, these figures are, to say the least, rather humiliating.

"We think we believe in education," says Claxton. "No doubt, we do believe in education in a way, but we have not paid and do not pay much for it."—Anniston Star.

HERE IS DEMOCRACY'S RECORD

Mr. Homer S. Cummings, temporary chairman, summed up the eight-year record of the Democratic party as follows at the San Francisco convention:

The Income Tax was made a permanent part of the revenue-producing agencies of the country, thereby relieving our law of the reproach of being unjustly burdensome to the poor. The extravagances and inequities of the tariff system were removed; and a non-partisan tariff commission was established so that future revisions might be made in the light of accurate information, scientifically and impartially obtained. Pan-Americanism was encouraged; and the bread thus cast upon the international waters came back to us many fold. The great reaches of Alaska were opened up to commerce and development. Dollar diplomacy was destroyed. A corrupt lobby driven from the national capitol. An effective Seaman's Act was adopted. The Federal Trade Commission was created. Child labor legislation was enacted. The Parcel Post and Rural Free Delivery were developed. A Good Roads Bill and Rural Credits Act were passed. A Secretary of Labor was given a seat in the Cabinet of the President. Eight-hour laws were adopted. The Clayton Amendment to the Sherman Anti-Trust act was passed.

freeing America and taking it from the category of commodities. Passed the Federal Aid Road Act, for cooperation between national and State governments, with \$600,000,000 highway program in progress. The Smith-Lever bill for the improvement adopted. A well considered Warehouse Act was passed. Federal Employment Bureau was created. Farm Loan Banks, Postal Savings Banks and the federal Reserve System were established.

These enactments, and many other provisions of a remedial character, had a cleansing and quickening effect upon the economic life of our country. The farmer was freed from the deadening effects of usurious financial control. Labor was given its Magna Charta of liberty. Business and finance were released from the thrall of uncertainty and hazard. The economic life of America was refreshed by the vitalizing breath of economic freedom.

This extraordinary narration sounds like a platform of promises. The sober fact is that it is an inadequate recital of actual performance.

It constitutes Democracy's response to the demands of social justice. It is our answer to the antiquated slander that the Democratic party is unable to understand the great affairs of the country.—Anniston Star.

FALSE ECONOMY

The Republican leaders of the last Congress made much ado about the alleged reduction of federal expenditures. As a campaign issue, it went good in the "sticks."

The Democratic Secretary of the Treasury submitted estimates to the Congress providing for expenditures of \$5,064,350,793 for the fiscal year 1921, which ends June 30, next.

The G. O. P. leaders immediately set about to trim these figures and actually appropriated \$3,717,441,484, boisterously announcing to the country that they had economized to that extent.

But the actual expenditures of the Government for the fiscal year 1921 amount to \$5,602,024,861. This is not the charge of Democrats in Congress, nor of opponents of the administration, but is the result of a tabulation of appropriations and expenses made by the most powerful newspaper allied with the Republican party during the last campaign and the most bitter critic of the Wilson administration—the New York Herald.

In its indictment of Congress for the practice of such camouflage for political effect, the Herald says:

"The New York Herald is presenting the unvarnished facts. This newspaper does not find, although the national capital be paved with good intentions, that anything of magnitude has actually been wrought yet at federal headquarters to make good on the promise of those in control of the Government and to satisfy the demand of the American Taxpayer that the treasury hemorrhage be staunch.

"The plain truth about the appropriating Congress and the administrative departments is that while they contemplate economy and talk retrenchment, they go on squandering."

Congress has gone through similar meaningless motions at this session. Secretary of the Treasury Mellon has pointed out that the federal expenditures cannot possibly be kept below a billion and a half more than the appropriation bills provide for. The exposure of the scheme by the Herald places the Republican propagandists in an extremely delicate position.

They had hoped to go before the country in 1922 on an alleged economy record. The budget system will not go into effect until 1923. The most casual observer knows that the operating expenses of the Government will be maintained at a rate of three and a half billions of dollars for years to come, and some responsible men have asserted that four billions would be the correct figure. On top of this, the interest on the national debt must be provided for and in the next few years we have about ten billions of principal to repay.

The scheme which the Republicans are working is simply to trim the estimates submitted by department heads and then come back a year later and pass deficiency appropriations to make up for the excess. There is an idea prevalent in Republican minds that if the original appropriations can be pared down, they will not be charged with the excess obligations incurred by the departments.

The disgust which the Herald evidences of the tactics of political cronies would indicate that the Munsey newspapers are preparing to flop over into the progressive camp again—if there are any progressives by that name left.—Nashville Tennessean.

Luke M'Luke shot and gave up his gun. And he never used poisoned ammunition.

Two unimportant happenings in the state of the everglades—exit Catts, enter W. J. B.

The best way to put number 1 first, is to put safety for right measures, first. The high school bond issue for instance.

Pressure is the acid test. The "flat" shows only on the bottom of the tire.

We must pay for all we get, either in effort or self respect.

Two famines that have followed each other in quick succession, the one was famine in production, the other a famine in dollars.

The seventy six languages used by aliens in this country were never intended to be-mean America with.

Germany decided to pay the bill and thereby save further war costs.

What are the two greatest contrasts known? Answer the gentle patter of the rain, and the patter of the shingle. The small boy of a generation ago will O. K. the reply.

STOMACH NAUSEA

Many persons have a good appetite one day and sickness at the sight of food and next. The stomach, like every other part of the body, is dependent upon spinal nerves for strength and vigor. Adjustments of joints of the backbone which have become out of alignment at "stomach place" restore normal stomach strength. Digestion and all the processes of the stomach become normal when there is 100% nerve energy.

Consultation is free and will place you under no obligation.

L. E. McGregor is
Found Not Guilty

(International News Service)
MONTGOMERY, ALA., June 7.—L. E. McGregor, who was tried Monday in the Montgomery county court for the murder of Jordan Scott, was released this morning when the jury returned a verdict of not guilty. The killing occurred several weeks ago in a room on South Court street in the center of the city. The men, with a number of others, were alleged to have been gambling and drinking when the difficulty arose.

The Story of
Our States

By JONATHAN BRACE
XXXVI.—NEVADA

NEVADA is a Spanish adjective meaning "snowy," and is taken from the Sierra Nevada, those lofty mountains which separate the State from California. Most of the history of the state centers in this Western section, near the Sierras, and it is here that all of Nevada's principal cities are located.

The first white man to cross the present state was the Franciscan Monk, Father Gares, who made his way across the deserts to California in 1775. In 1825 Peter S. Ogden of the Hudson's Bay company discovered the Humboldt river, which is sometimes called Ogden river after him.

The next memorable trip across the state was that by Fremont in 1843, when he went to California at the time of the outbreak of the Mexican war. It was this war which in 1848 resulted in Mexico ceding a large area to the United States, of which Nevada was a part. When this was organized into territories, the Territory of Utah extended to California. The Western inhabitants, however, were left to their own resources and accordingly organized their own government. Resenting the attitude of Utah they petitioned to be annexed to California.

In 1859 the Comstock Lode was discovered and Nevada had its own mining boom. Population immediately grew by leaps and bounds and in 1861 Nevada was formed into a separate territory. Later, portions of Utah were added and the lower part of the state was taken from Arizona. Petitions for statehood were made but it was not until 1864 that Nevada became the thirty-sixth state of the Union. Though Nevada ranks sixth in size with its area of 110,000 square miles, it has the smallest population of any of the 48 states. Between 1800 and 1900 there was a marked decrease in the population due to the falling off of mining industry.

World Wants Man of Initiative.
The busy world shoves angrily aside the man who stands with arms akimbo set, until occasion tells him what to do; and he who waits to have his task marked out shall die and leave his errand unfulfilled. James Russell Lowell.

Might As Well Tell Him.
Nine times out of ten when a man asks for advice, what he really wants is to have you tell him he is doing exactly the right thing.

New Source of Paper.
From a mixture of sugar cane refuse and bamboo fiber a Trinidad planter has succeeded in making a paper equal in quality to the best wood pulp product.

WOMEN GIVE OUT

Housework is hard enough when healthy. Every Decatur woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Decatur woman's experience: Mrs. Virginia Calvin, 1213 Fourth avenue, says: "I had just recovered from the grippe when I noticed my kidneys were in a weak and disordered condition. There was a painful sensation extending up into the neck of my bladder and I was in bed most all the time, up one day and down the next, and I felt miserable. I had large circles and puffy spots underneath my eyes and all the remedies I tried brought me no relief. Finally, one of the family suggested me trying Doan's Kidney Pills and he got a supply at Jillehay Bros. Drug Store. I began using them and they soon made me feel much better."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Calvin had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

BAPTISTS COLLECT
\$25,000,000 CASH

REDEMPTION OF PLEDGES ENCOURAGING—SOUTHWIDE PROGRAM IS LAUNCHED.

COMPLETE GREATEST YEAR

Reports to Southern Baptist Convention at Chattanooga Show Marked Progress Along Every Line of Organized Work.

DR. J. H. RUSHBROOKE
Baptist Commissioner for Europe.

Collections in cash totaling \$25,103,424.64, have been made for general causes fostered by the Baptist 75 Million Campaign since the campaign was launched in 1919, according to a report to the Southern Baptist Convention, which has just adjourned its Chattanooga session, by Dr. L. R. Scarborough, general director of the campaign, and chairman of the Conservation Commission. The fact that \$12,924,943.60 of this amount was collected during the past year, under the most depressing conditions known in years, is very encouraging to the denominational leaders, they say.

Will Seek the Unsaved.

Feeling the need of conserving the spiritual interests of the people as well as the financial aspects of the campaign, the convention asked the Conservation Commission to seek to enlist, through the state and associational organizations, all the 27,000 local Baptist churches in the South in a larger evangelistic effort during the next twelve months, the aim being to induce as many individual members of the churches as possible to win at least one soul to Christ during the new year. Reports to the convention showed that there were 173,595 persons received into the local Baptist churches by baptism during the past year, and a much larger number will be sought during the year ahead.

Would Evangelize Europe.

One of the interesting actions of the convention was the decision to back up fully the Foreign Mission Board in its program for the evangelization of the new European territory of Spain. Jugo-Slavia, Hungary, Roumania, the Ukraine and Southern Russia. Dr. J. H. Rushbrooke, of London, Baptist Commissioner for Europe, addressed the convention, telling how he had distributed the relief funds contributed by Baptists for the needy families of those countries and how the giving of this relief had opened wide the door of missionary opportunity.

Work on the older foreign fields during the past year was unusually successful, the board reporting receipts of \$2,404,938 for its missionary operations and \$278,000 for relief work, as well as \$100,000 worth of clothing; 6,998 baptisms on the foreign fields; 137 of the 611 churches self-supporting, with a total of 495 foreign missionaries and 978 native workers employed.

Home Mission Board Active.

The Home Mission Board reported 77,072 additions to the churches through its instrumentalities, church extension operations of \$1,248,000, and 298 patients treated at the Tubercular Sanatorium at El Paso.

During the year the receipts of the Sunday School Board reached \$1,147,721.73, and the board turned back into general work of the denomination the sum of \$189,000.

Although only three years of age, the Relief and Annuity Board, which seeks to supply the needs of aged, dependent ministers and their families, has doubled the number of beneficiaries receiving aid from the denomination as well as the amount of relief given. It now has permanent resources in excess of \$900,000.

There are 119 Baptist educational institutions in the South, with a total enrollment of 40,000 pupils, the report of the Education Board showed, and 2,185 of these pupils are preparing for special Christian service, such as the ministry, missionary and other special religious work.

The Woman's Missionary Union, representing the organized women of the South, reports a total of 19,485 organized societies of women and young people, while the cash contributions by the women to the various causes fostered by the denomination during the year amounted to \$3,115,437.

New Words.

New words appear now and then. The old-time real estate agent is now "a realtor," and the one-time undertaker is a "mortician." The other day a hobo came in to get a dime and said he was a leisurist. And so it goes.—Hogston Post.

Split is Widened
Between Solons

WASHINGTON, June 7.—The split between the senate and house over the question of disarmament conference was widened this afternoon when the house voted to send the navy appropriations bill to conference with instructions to the conferees to disagree to all senate amendment.

The Borah disarmament amendment will be opposed by the house conferees as will also the \$100,000,000 increase in the navy appropriations.

The vote by which the bill was sent to conference was 232 to 110.

MEET TONIGHT.

Mizpah chapter No. 19 O. E. S. will meet tonight at 7:30 at Masonic Hall, Initiation.

COTTON MARKET
SHOWS ADVANCE

(International News Service)

NEW YORK, June 7.—The cotton market opened steady today at an advance of from 1 to 10 points. Part of the buying was due to firm cables and an improvement in the English situation. There was selling by New Orleans and other Southern interests.

Liverpool was one of the buyers. Spot houses took July and there was considerable switching from near to later months. After the start, there was an increase of local selling pressure which sent the list back to last night's closing levels.

Don't expect to get through a hot summer of hard work without a sick spell, if you start with your system full of impurities. To avoid a breakdown in the busy season begin now taking Prickly Ash Bitters, the remedy for men. It will purify the blood, liver and bowels and put the system in healthy condition. Price \$1.25 per bottle. Sold by all druggists.—Adv.

MAKES FEET FEEL FINE!

Your Old Cabinet is Worth
from \$5 to \$20

as a first payment on a new

Special Offer
to present
HOOSIER
Owners

If you have had your HOOSIER ten years or more, here is our proposition. We will allow you the full price you paid for your HOOSIER when new, less \$1.00 for each year you have had it.

This is possible because there is less depreciation in the value of the HOOSIER than any other household device. An old HOOSIER is worth more than many new cabinets.

Think of it—this offer means that when you trade in your old HOOSIER you will have paid only \$1.00 a year for the use you had out of the HOOSIER.

Have you ever heard of a more liberal offer.

HOOSIER

You would be surprised to know the large number of women who have exchanged their old Kitchen Cabinets for a fine new HOOSIER BEAUTY since this sale started.

Every one of these women got a very liberal allowance for her old cabinet.

And in each case, no cash payment was required.

You, too, can profit by this opportunity. Get rid of your old-style cabinet and secure, at once, the very latest development in Kitchen Cabinet construction.

HOOSIER—the Cabinet of proved improvements—saves more steps and work than any other kitchen convenience. And it is easy to own a HOOSIER on our present terms.

It makes no difference how new your present Cabinet may be, it will pay you to exchange it for a HOOSIER because HOOSIER is not a mere storage cabinet, but a real working-center for your kitchen.

We will make you so liberal an allowance for your old cabinet that the difference merely represents a moderate payment on your part for the use of that cabinet while you had it. You pay us nothing on your new HOOSIER, until after you have had the use of it.

And when you get the HOOSIER—you get a cabinet that you would not part with AT ANY PRICE—unless you knew you could replace it with another HOOSIER.

FOUR

Special

Inducements

1 You pay no cash. Regardless of how old your present Cabinet may be, we will allow you from \$5.00 to \$20.00 for it.

2 You pay the balance in small weekly payments. No extra charge for these easy terms.

3 The regular low 1921 prices on the Hoosier prevail during this offer. These prices are fixed by the factory.

4 No interest charges—no extras. You pay the low factory price—less our liberal allowance for your present cabinet.

If you do not own an old cabinet

MAHON-CARTWRIGHT

REHEARSAL PARTY

Last evening Miss Rosa Cartwright entertained the rehearsal party for the Mahon-Cartwright wedding, which is an event of this evening. The reception suite of the Cartwright home was simply but beautifully decorated in a motif of pink and white, sweet peas and roses being used in profusion. After the rehearsal dainty ribbon ices and cake were served to the following: Misses Dorothy Mahon of Greenville, S. C. Marguerite Cartwright Huntsville, Grace Thomas Fayetteville, Tenn., Miss Tompkins Edyfield, S. C., Florence Phinley, Ruth Banks, Gertrude Matheny, Mrs. J. H. Morgan and son Morgan Jr., of Greenville S. C., Mr. and Mrs. Winston Jones, Rev. and Mrs. Donaldson and son Tillman, Mrs. Earl P. Calvin and Earl Jr., Mrs. Fred Davidson, Mrs. A. T. Hanson and son Taplin, Mrs. T. M. Dix and Nell Beach Dix, and Sarah Jones and Messrs. Jim Davenport and Hamar Cartwright.

Miss Corene Tatton of Huntsville is guest of Miss Rebecca White.

Miss Susie White has returned from Winston-Salem, N. C., where she has been visiting her sister, Mrs. Wheatley Davis.

Mr. and Mrs. R. Keltner of Nashville are visiting Mr. Keltner's mother, Mrs. Frances Keltner.

Mr. and Mrs. Floyd Sandusky, bride and groom of Lawrenceburg, Tenn., are spending a few days here the guests of Mr. and Mrs. E. W. Sandusky of Sixth avenue.

Mrs. C. D. Laymon and Miss Sid Dudley spent yesterday in Birmingham.

Miss Maxie Gill has returned to Hartselle after a ten days visit to Miss Lura Mae Graham.

Miss Marjorie Cline, of Sheffield left yesterday for Decatur, where she will spend the summer with her parents, Mr. and Mrs. J. L. Cline. Arthur Gambell, has returned to Decatur after a visit to relatives in Tusculum. Mrs. Eugene Duncan and children of Decatur, are the guests of Mrs. Duncan's parents, Mr. and Mrs. J. Fred Johnson, of Florence. Tri-Cities Daily, Sheffield.

Mrs. C. Andrews is quite ill at home on Third avenue West.

Mr. and Mrs. Ed Berry and Mrs. Edith McKnight spent yesterday in Birmingham.

Mr. and Mrs. H. M. Spiegel have been called to Nashville by the serious illness of their daughter Mrs. R. Joyce, who underwent an operation at St. Thomas's Hospital Monday.

Mrs. W. A. Sullivan of Brunswick, Ga., will be the guest of friends in Albany.

Mrs. Golda Goblet of Jackson, Tenn., is the guest of her sister Mrs. E. E. Harvey and Mrs. A. E. Tennell.

Miss Gladys Bernardi will leave Wednesday for Nashville, where she will take a six weeks summer course at Peabody.

Mrs. Sam Ory of Albany, Alabama, is visiting friends in Nashville. I. J. Kuhn has returned from a visit to friends in Alabama. Nashville Tennessean.

PERSONALS

Messrs. A. L. Handley and C. D. Laymon attended the shiner's ceremonies at Birmingham yesterday.

Atlee H. Hoff and son, Atlee Honkel, with Miss Martha Hoff, are spending a few weeks at Horne and Red Boiling Springs, Tenn.

D. D. Burleson is in Birmingham today.

Mrs. S. F. Broadus and Miss Charlotte Broadus have returned to their home at Decatur after a pleasant visit with Mrs. C. C. Dillard. Huntsville Telegram.

C. F. Searcy of Chattanooga is the guest of his sister, Mrs. Ida Price for a few days. Mr. Searcy will be accompanied here by his nephew James Searcy.

WOMEN'S MISSIONARY OF
CENTRAL M. E. CHURCH.

The Women's Missionary Society of Central M. E. church was entertained in the hospitable home of Mrs. A. Z. Bailey, Monday June 6th at 3 p. m. Mrs. Al Blackwell read the scripture lesson from Proverbs. Mrs. L. A. Neill was leader. Topic: "Recreation and Education in the Rural Communities." Mrs. B. Preuit, assisted in the program. The selections read, were full of interest and we were gratified to observe the marked advancement made in the point of education in our beloved state. Education is the chief asset to any community or nation. Mrs. W. P. McGlawn was the only visitor yesterday afternoon. A social followed light refreshments were served, and a most pleasant hour was spent. Mrs. Wolcott and Mrs. Zena Bailey assisted in serving.

MRS. J. J. ROSE,
Publicity Chairman.

PAY HONOR TO GOD OF FIRE

Japanese Religious Observances That Take Place in Coldest Season of the Year.

A Japanese religious observance peculiar to the coldest season of the year is that of bathing in cold water and wearing to and from the bath a single kimono of pure white, with a white band about the head. The ceremony, says the Japan Advertiser in a recent issue, is out of respect to Pudo-san, the god of fire, primarily. Those observing the custom carry a lantern and jingle a small bell as they go along the street. The season continues for thirty days.

The first fifteen days of the season is called the daiken, or great cold, and the second fifteen days the shokon, or small cold. Most of those who go through the ceremony are young men, apprentices in some trade, who run to and from the bath, repeating the words, "Itokkon Shoko," as they go. The principal temple and bath is the one in Fukawaga-ku. The cold water bath there was recently rebuilt at a cost of 800,000 yen in anticipation of the cold season. It is open for women only until 6 o'clock in the evening, but at all hours in the day for men. Among the women are many young actresses, who pray earnestly for success in their profession. Another Pudo shrine is near Meguro station.

RHODES NEVER WOMAN HATER

But Celebrated "Empire Builder" Had Little Time to Devote to the Gentler Sex.

Cecil Rhodes had the reputation of being a woman hater, but he was by no means a misogynist, though he might have been regarded as a misogynist. He was wedded, it was said, by his friends, to Africa. But his life would have been more complete and no less full of achievement if he had been married to the right woman—at least so says my wife and other women who knew him.

While I have said Rhodes was not a woman hater, he was averse to wasting his time on women of mediocre intellect. Rhodes excused himself for not marrying by saying that he had not the time to give a wife the attention she was entitled to receive.

In his magnificent house at Cape Town there was only one picture. It was a painting of a young woman, beautiful and modest of aspect, by Sir Joshua Reynolds, and hung in the dining room above the fireplace. He loved to look at it and frequently told how he had gained possession of it. As a boy he took a great fancy to this picture, which belonged to a relative, and his love for it increased as he grew to manhood. Eventually he bought it. He always wound up the story by saying: "Now I have my lady, and I am happy."—John Hays Hammond in Scribner's Magazine.

The Center of Population.

The center of population is the center of gravity of the population of a country, each individual being assumed to have the same weight. In the United States the center of population has followed the parallel of 39 degrees latitude and has moved in a westward direction during the last 125 years.

Preferable.

Says an exchange: "Soon now the grass will grow again, but don't let it be under your feet." Still say we, better thus than to have it growing over your head.—Boston Transcript.

Germans Angry at Allied Threat

LONDON, June 7.—The allied threat to withdraw allied military forces from the Upper Silesian cities they occupy, unless the German volunteers retire, is branded as "a grave breach of the treaty of Versailles" in a German note received here today. The communication which was a reply to an allied note, was handed to the foreign office by the German ambassador.

The allies had warned Germany that the volunteers must withdraw or the allied troops would retire from

the Silesian cities now in their possession, thus opening the way for Polish occupation.

The allied threat was characterized as "intolerable" and the German communication declared that it would bring about a condition in Upper Silesia which would make civil war inevitable.

CARD OF THANKS

We wish to thank our neighbors and friends for their help and the kindness shown us in the sickness and death of our dear mother. Also for the use of cars and the beautiful flowers.

May God bless and save you all.

MR. and MRS. H. B. BRADSHAW and FAMILY.

Adv't 1t

Voice of People

Editor, Albany-Decatur Daily, Albany, Alabama.

Sir:

Opportunity will be presented in August 1921, to all young men who have the proper qualifications, to take the examinations for appointment on Second Lieutenant in the Regular Army. Candidates must be between the ages of 21 and 30 years and possessed of the equivalent in education of about three years in college.

There are many vacancies in the Army at the present time with consequent promise of good advancement to those entering now. The pay of a Second Lieutenant is \$2,180 per annum, with allowances of quarters, heat and light in addition. To young college men seeking a career, the outlook for advancement is very attractive. It is hoped that the Muscle Shoals District will not be backward in interesting young men in this opportunity.

It is requested that you bring this matter to the attention of your subscribers and refer them to the undersigned or to Major H. F. Cameron at Wilson Dam, who will be glad to talk with interested persons and advise them on the subject. I may be found at Headquarters, U. S. Nitrate Plant No. 1, Muscle Shoals, Alabama.

Thanking you for your co-operation, remain

Yours very truly,
E. E. MacMORLAND,
Capt. Ord. Dept., U. S. A.

Funny Tribe in Cold Weather.

All fish do not hibernate during the winter. Some species find homes in holes or beneath rocks and roots and set along very well without food during the cold weather, but they are not as cold as the bears and groundhogs that hibernate. Most of the fish swim about in the cold water and gather in living in winter just as they do in summer, but none of them requires so much food when the water is cold.

"Potter's Field."

The term, which is applied to a place where the penniless and unknown are buried, had its origin in Matthew 27:7, when the chief priests "took counsel and bought with them (the thirty pieces of silver for which Judas betrayed the Master) the potter's field to bury strangers in." The name has clung to such plots ever since.

Evil Omen in Dream.

To dream of a massacre foretells the presence of some contagious disease in a community, and is an evil omen to all save gardeners and florists.

New York Letter

by
Lucy Jeanine Price

NEW YORK, June 7.—Brooklyn Bridge serves much more than an utilitarian purpose. No other place in all Greater New York is so thickly speckled with artists and their palettes as is this great crossways between Manhattan and Brooklyn.

"Some days they're so thick here, they almost hold up traffic," said a bridge policeman the other day.

"About all the young artists who come from other parts of the country go to Brooklyn Bridge the first thing. They say it's the skyline they're so keen about getting."

Big business methods permeate all ages. The boys who live near the Polo Grounds have always picked up a little loose change on Saturdays and holidays by standing in line for ball caps waiting to get tickets. Generally it meant 15 or 20 cents. But downtown ideas have gripped the more ambitious. Nowadays several of them are hiring smaller boys to do the actual waiting while they solicit business up and down the line of those waiting to get in. The boys who do he waiting in line get a fixed wage, while the promoters get the actual payments.

How seriously New York is taking the blue law agitation is evidenced by the re-publishing of the whole lot of them gathered up from former times. One of the larger department stores in town is advertising it at considerable length as "particularly timely."

"We want to know," reads the ad, with what seems to be dread significance, "what the blue laws were, the reason for enacting them, and the final results of that experiment."

Amusements

CLEO MADISON RETURNS TO SCREEN IN A BRILLIANT ROLE

Cleo Madison, the golden-haired player who for several years has been an idol of the film world, again graces the screen after an almost continuous absence of more than a year.

Miss Madison appears with an all-star cast in Metro's production of "Lure of Youth," Luther Reed's villainous drama. In this new picture she returns as a brilliant stage star who figures in a three-cornered love affair that lacks the usual bad man of the "eternal triangle."

More than a year ago Miss Madison was the victim of a nervous collapse due to overwork. Her physicians had predicated that nothing but a long rest and freedom from the cares of her profession ever would make possible her re-appearance on the screen. But her recuperation was so rapid that within six months she found it possible to return to work as an important player with Bert Lytell in Metro's "The Price of Redemption."

She did not again return to the screen until called upon to play the feminine lead in "Lure of Youth," Gareth Hughes, well known for his brilliant characterizations on the speaking stage and the screen plays the leading male role.

Delite today.

"THE STEALERS" RARE JEWEL OF THE SCREEN

(Princess Today.)

One of the most poignant and appealing screen dramas ever written is "The Stealers," William Christy Cabanne's eight reel super-special, released by Robertson-Cole, which will open at the Princess Theatre today for one day only.

The picture is one of those rare epics of the screen which entertains and at the same time seems to have a serious purpose, in this case a tendency to make the spectator stop and hink of the wonders of the universe and the power of divine faith.

The story deals with the regeneration of a clergyman who had prostituted his talents to defying God instead of serving him. How his rescue from the forces of evil influence others furnishes an original and interesting climax.

"The Stealers" is a spectacular in its scenic effects as it is in theme. The titles are colored—something new in pictures—and so are some of the big scenes in two of which more than 5,000 persons take part.

Verse Writing Taught in School.

In Chinese schools, just before the noonday recess, the teacher writes a sentiment, a proverb, or a proposition upon a slip of red paper and pastes it upon the door. Each boy as he goes out reads the lines, and in the afternoon gives to the teacher another line which will, with the first, make a couplet.

New Quick Way to Put On Firm Flesh

Thousands of weak, thin, pale and sickly people are now quickly putting on solid flesh and regaining rugged health and strength in an entirely new way.

This way is by taking vitamins in to their systems. Vitamins are a mysterious living substance, found to be absolutely necessary for perfect daily health. But most of our foods are lacking in them—that is why so many of us become thin and run-down.

Yeast has been found to contain billions of vitamins and is bringing incredible results in putting good flesh and muscle on thin people. No need to eat yeast cakes—simply take Ironized Yeast tablets, containing iron and highly concentrated brewer's yeast, the most efficient form of yeast. Pleasant to take—brings quick results.

Sold and highly recommended by Albany Drug Co. Special directions for children.—Adv't.

A Delightful Row

"My wife had suffered from stomach and liver trouble for many years and had taken medicine enough to sink a ship; so when I brought home a bottle of May's Wonderful Remedy in the advice of my employer, she refused to take. Her liver trouble hadn't helped her disposition any. We had a big row, but she took it the next week. Her ailments have all disappeared." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at all druggists.—Adv't.

Rub-My-Tism is a great pain killer. Relieves pain and soreness, Rheumatism, Neuralgia, Sprains, etc. (Adv.)

WHAT you lose thru baking failure must be added to baking costs—it has to be paid for.

Calumet Baking Powder will save you all of that. Because when you use it—there are no failures—no losses. Every baking is sweet and palatable—and stays moist, tender and delicious to the last tasty bite.

That's a big saving—but that isn't all. You save when you buy Calumet and you save when you use it.

Pure in the can—Pure in the baking

It is reasonable in cost and possesses more than the ordinary leavening strength. You pay less and use less. You get the most in purity, dependability and wholesomeness.

In every way—it is the best way to keep down baking costs. That is what has made it the world's biggest selling baking powder—has kept it the favorite of millions of housewives for more than thirty years. Good wholesome bakings can be made only of good materials, no other way, so use only good baking powder and good plain flour (not self-rising flour).

Calumet Sunshine Cake Recipe
1 1/2 cups of butter,
1 1/2 cups granulated sugar, 2 1/2 cups flour, 1 cup water, 2 level teaspoons Calumet Baking Powder, 1 teaspoon lemon, whites of 2 eggs. Then mix in the regular way.

They never made a cigarette like this in my day—

The Camel idea wasn't born then. It was the exclusive expert Camel blend that revolutionized cigarette smoking.

That Camel blend of choice Turkish and Domestic tobaccos hits just the right spot. It gives Camels such mellow mildness and fragrance!

The first time I smoked Camels I knew they were made for me. I knew they were the smoothest, finest cigarette in the world, at any price.

Nobody can tell me anything different.

Secretary Davis is Regular "Jiner" Belonging to 18 Fraternal Orders But is Far From Being Millionaire

By HARRY WARD,
International News Service Staff
Correspondent.

WASHINGTON, June 7.—Secretary of Labor Davis today confessed that he isn't a millionaire. The man who rose from a puddler in the steel mills of Pittsburgh to the dignity of a Cabinet officer laughingly said that the report that he was in the magical class of the wealthy was "greatly exaggerated."

He then explained how the report that he was a millionaire got abroad. It appears that long before he ever dreamed of sitting around the Cabinet table of the President of the United States he had occasion as director-general of the Loyal Order of Moose to apply to a Pittsburgh banker for the loan of \$1,000,000 to finance certain activities of the fraternal organization. The banker, taking the application under consideration, called in some of his associates for advice.

"Who is this man Davis?" he asked. "Why, he is the general organizer of the Moose and every one of its 600,000 members pays him \$2 a year," one of the bankers replied. He got the loan all right, and that is

how the story originated that he was a millionaire.

"It is true that every member of the order pays \$2 a year," said Secretary Davis, "but that \$2 goes to make a home for children and the maintenance of a school to educate them."

It is one of his creeds that "every child is entitled to at least a high school education and a trade." In Mooseheart, Ind., the order now maintains a school where orphan children numbering 1,200 are being educated and trained to make useful citizens. This school is one of the hobbies of the Labor Secretary and he is always planning to increase its scope and effectiveness.

"Jin" Davis, as the new Secretary of Labor is affectionally called, is a "jiner." He is a member of Eighteen fraternal and other organizations, but the Local Order of Moose claims most of his attention. He joined that order in 1906, becoming its 247th member. Since 1907 he has been its director-general and under his administration it now numbers over 600,000 members.

The labor Secretary was born in Tredegar, Wales, on October 27, 1873, and was brought to this country by his parents in 1881. When but eleven years of age he started out to work and found hard employment in the steel mills at Sharon, Pa. In 1892 he went to Pittsburgh and worked in the steel mills there as a puddler. Later he went to Ellwood, Ind., and became County Clerk. He still holds a union card in the Amalgamated Iron and Steel Workers' International Union.

ANY TAX PAYER MAY APPEAL FROM YEAR'S ASSESSMENT UNDER CERTAIN CONDITIONS

New Ruling is Announced by Attorney General Harwell Davis Today

SOME ALABAMA CITY
WILL GET A HOSPITAL

Big Government Institution Will
Be Located Somewhere
Within the State

(Montgomery Bureau Albany-Decatur Daily)

MONTGOMERY, ALA., June 7.—Any tax payer may appeal from the assessment of his property this year if the assessment is based on a personal inspection of the property and the temporary assessment last year was not based on such a personal inspection according to a decision of the attorney-general mailed to all tax adjusters of Alabama by the state tax commission today.

This means that assessments now being made by the tax adjusters on property which could not be visited and personally inspected because of lack of time last year are on the same basis of those made after personal inspection last year. The adjusters of Jefferson and many other counties were unable to visit all property last year and therefore the assessments fixed by them on such property as was not visited were temporary and continued for only one year. The assessments fixed after personal inspection stand for two years and cannot be changed, under a former decision of the attorney-general, unless there has been a change in valuation due to improvements in the property or decreases in valuation because of the removal of houses and other improvements, or the removal of minerals from the ground.

Tax adjusters were requested by the commission to keep close check of all cases in order that the state may have the property representation at the hearing of all cases resulting from the assessments this year.

Hospital Site.

Some Alabama city has an excellent opportunity of obtaining a government hospital for the treatment of tuberculosis or mental patients developed in the service of the nation, according to a letter received by Governor Kilby today from the Consultants on hospitalization of the United States Treasury Department, who requested the governor to give such information as would lead to suggestions from persons who are interested in the location of such a hospital in this state. Governor Kilby made public the letter with the request that chambers of commerce and other organizations and individuals communicate directly with William Charles White, chairman of the consultants, at Washington.

The consultants said at least three hundred acres of land must be in the plat proposed as the site and that the location must be near a center of population, must be healthful, must have a good supply of water and must be near thorough lines of transportation. A hospital of five hundred beds would cause the permanent location of a personnel of two hundred persons and the monthly pay roll would be about twenty thousand dollars.

Final Report Made.

T. F. Pitts, tax collector of Bullock county, made a final settlement of tax collections with the state auditor today. He is the second tax collector to make a final report to the state. Mr. Pitts said not a person in his county appealed to the board of revenue from an assessment fixed by the tax adjuster.

Doubtless All for the Best.

We grow tired, and long for some shorter and easier way "home." But there is nothing for us but the steady, patient trudging of the path day after day. And doubtless at the end we shall see there was not one step too many or too hard.

Trade is Rumored With Chattanooga

Rumors were prevalent today that the Albany-Decatur baseball club is "on" a trade with Chattanooga of the Southern league, for one or more players. The details were not announced and Manager McDuff, when asked regarding the rumors, stated he had nothing to give out yet.

Bob Higgins, scout for Chattanooga and the Detroit Americans was here last week. He liked the looks of Johnston, local catcher, but declared that his principal mission is to find outfielders. It was presumed that he wanted them to strengthen the Lookouts, who are a poor last place in the Southern league.

Higgins also made inquiries regarding Carter. It is known that Manager McDuff is anxious to secure the services of a good left handed pitcher and it may be that Chattanooga is in position to furnish one.

It was expected today that McDuff would be able Wednesday to tell something of the reported trade.

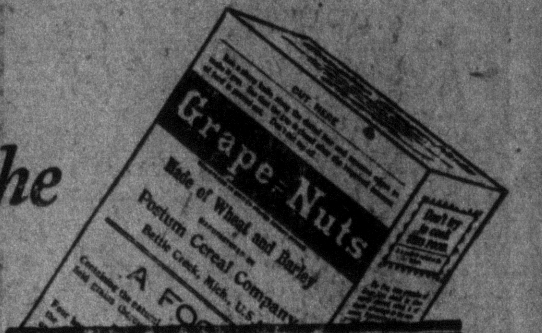

Not Necessarily Wrong.

Adv.—"Plain cook wants situation. No objection to doing a little plain cooking." Possibly the first "plain" refers to her looks.—Boston Transcript.
